RECOMMENDATION FOR PAULETTE MENDY

Paulette Mendy a nurse attendance has been known to me for the past five years in the above named facility. She is a well behaved deligent person with a calm demeanor. She maintains good relationship with both staff and client or patient who seeks for health care at the facility.

Paulette is a very committed hard working lady who always goes the extra mile to see that both colleagues and patients at the facility get the best treatment they deserve. She is very regular and punctual at any given time she is call to work. She exhibits a high sense of professional in all her dealings with patients and staff. She is intuitive, always strives to satisfy patients and makes best use of the experience and knowledge around her anytime the need arise. She is highly disciplined and has a great deal of respect for authority and also her work. Her attitude and practice are consistent with the code of ethics for nurse attendance and the general service regulation of the civil service as a whole.

It is my sincere hope that she will stand the rigors and meet all the challenges and requirement of your instution in pusuing her dream of becoming a trained nurse.

Yours faithfully,

Date:
