TO WHOM IT MAY CONCERN

LETTER OF RECOMMENDATION FOR MRS SOPHIE GOMEZ-AFOLABI

I have known Mrs Sophie Gomez-Afolabi for over five years ago when she worked as a Nurse Coordinator on Tuberculosis project at Medical Research Council, Fajara. The project is very challenging as it is run according to Good Clinical Practice, and in these rather challenging and complex clinical trials involving clinical, field and laboratory activities, Sophie demonstrated competence in sensitisation, collection of biological samples, safety monitoring and provision of adequate nursing care to the study participants.

From my interactions with her, Sophie strikes me as an intelligent and committed professional. She pays adequate attention to details, demonstrates high degree of intellectual curiosity and considerable motivation to acquire more knowledge. She has good communication skills and functions well in team settings. Her enterprising attitude to clinical and research issues has enabled her to successfully play many leadership roles in several projects.

It is in the light of the aforementioned that I strongly recommend Mrs Sophie Gomez-Afolabi for the position she applied for.

Sincerely,

A handwritten signature in black ink, appearing to read 'M. Afolabi'.

Dr Muhammed Afolabi, MBBS, MPH, FWACP, FMCFM, PhD
Clinical Scientist
