10th January, 2023

RECOMMENDATION

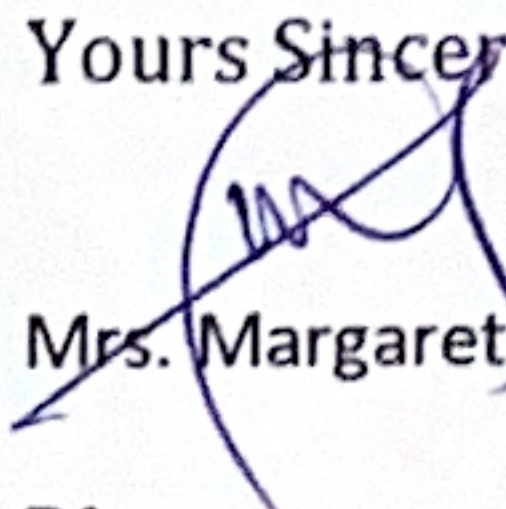

MARIAMA JARRA has attended an Intensive Foundation Course in General Nursing from 14th February, 2022 to 24th February, 2023.

She has been found to be focus, hardworking, punctual, well discipline and very much interested in nursing. She always make sure that work is done and accomplished at the right time. She is a good practical nurse.

In view of the above, I strongly recommend her to any employer who needs her services or any institution to further her education. I have no iota of doubt that she can perform to the best of her ability.

Whilst counting on your usual support, please accept the assurances of my highest consideration and esteem.

Yours Sincerely,

Mrs. Margaret Gomez

Director
