Bijilo, 25th November 2019

To whom it may concern

Letter of Recommendation

Ref: Mr. Hamat Jaw

Dear Sir, Madam,

Bijilo Medical Center (BMC) is a Non-Governmental health facility with a 30 bed ward, an out-patient unit, X-ray unit, delivery room, an active ante-natal clinic and a well equipped laboratory. BMC was established in 2002.

Mr. Hamat Jaw joined the BMC team in June 2019. He has been working as a nurse attendant under direct supervision of BMC management. He has always performed up to high standards of nursing and health care.

Mr. Jaw now aspires to be further trained in nursing and enhance his competences. He has already shown his vast potential in this field while working at our clinic as a Nurse Attendant at our in- and outpatient Department.

Based on his theoretical knowledge, practical skills and eagerness to learn, we are convinced that Hamat will succeed in additional nursing training if given the opportunity.

We strongly recommend him for further training.

We have no doubts that after obtaining such training, Hamat will be better prepared to carry out his duties adequately.

We remain at your disposal for further information.

Yours sincerely,

Dr. Musa Touray
Swiss FMH Board Certified In Internal Medicine
Clinical Director
