BNJULINDING HEALTH CENTER/WR1

Dear sir/Madam,

RE: LETTER OF RECOMMENDATION:

Is a great pleasure for me to write in support of recommending Awa Sanneh SEN Banjulinding Health Center. She served in Banjulinding health centre for the past two Years and implements nursing care services including patient's care, outcome, monitoring and evaluating of patients' medical condition. I found her to be brilliant and determined to excel in anything she is doing .She is committed to her career development and has interest in her work and performs it to the best of her ability.

Therefore, I am convinced that she has the capacity to improve her knowledge if giving the opportunity. Training her as a registered nurse, will prepare her for higher leadership and management roles in the delivery of health care services in the Gambia and beyond. Knowledge is necessary in enhancing quality health care services

Without reservation I recommend her to be giving the privilege to be trained as a registered nurse with reference to her determination, punctuality and respect for the profession.

Yours sincerely

Marie T Gomez

Deputy OIC
