RE: RECOMMENDATION LETTER FOR MS. MAI JAWARA

This is to certify that I have known **Mai Jawara** for about three years now. Mai is a State Enrolled Nurse currently working at **Essau District Hospital**. She has obtained a State Enrolled Nurse Certificate at the School for Enrolled Nurses and Midwives at **Bansang** in the Gambia. Mai has acquired about five years of work experience in the Gambia offering services at different health facilities in the North Bank West Region.

As her immediate supervisor at the Regional Health Directorate as the Regional Principal Nursing Officer, I have found her to be intelligent, submissive, creative, and also good at absorbing new ideas or concepts. Mai is honest and polite with a high degree of self-esteem, and a very good sense of purpose. She is highly dependable at work and tries to complete tasks given to her on time. She also has a good teamwork spirit manifested by her ability in working cordially with all the staff at the health facility level.

These aforesaid good qualities, together with her professional qualification and experience, and ambition to further her education make her a very suitable candidate for further academic training program. I, therefore, strongly recommend her.

In case of any need for further information concerning her, you may please contact me.

Yours Sincerely,

Omar Gassama

Regional Principal Nursing Officer (RPNO)
