Date: 12<sup>TH</sup> November 2019

Dear Sir/Madam,

**RE: RECOMMENDATION LETTER FOR ISATOU BARROW CNA**

This to certify that the office has recognized the good work Isatou Barrow has been doing good work over the years in improving quality of health care in the region and I decided to support her application to study in any institution.

She is found to be an excellent staff and is highly recommended by the office for diligent, consistency and high standard of performance in service delivery.

She is hard working, punctual, obedient and respectful with a high sense of purpose and self-esteem. She is very committed to her work and a good resource for the Ministry of Health if only given the opportunity.

Her abilities to cope with highly stressful situations at work and outside work, is a clear manifestation of her commitment to services, which really makes her admired by the entire staff of the Regional office.

She is always keen to develop herself so as to enrich her skills, knowledge and experience to cope with emerging health situations globally.

It is against this backdrop that, the office hereby recommends her to be accepted for the programme she applied for as a kind of motivation for her after being regarded as one of the best outstanding Community Nurse Attendant in the Region.

Thank you

**Yours Sincerely,**

A handwritten signature in blue ink, appearing to read 'Ousman Sarjo', written over a horizontal line.

**Ousman Sarjo.**
