

AFRICMED CLINICAL SERVICES

Date: 27th May 2018

Re: Ms Adama H. Barry

Dear Sir/Madam,

RECOMMENDATION

Ms Adama H. Barry a student of the school for Nurse attendants has undergone attachment at the Afrimed Hospital for a period of six weeks commencing from 21/02/2018 – 30/03/2018.

During this period Ms Adama H. Barry was mainly involved in assisting trained Nurses in their daily ward duties.

She was able to do vital signs monitoring

- Bed bathing
- Damp dusting
- Bed making
- Helping in giving medication
- Health talks to patients
- Motoring in patient charts

Ms .Barry has shown keen interest in Nursing and hope that she would further her education to become a qualified Nurse.

I strongly recommend her for the position She recently qualified for which is a NURSE ATTENDANT and have no doubt that she can excel better.

Yours Sincerely

Alhagie Suwaneh

Deputy Executives Nursing Officer
