**RE: RECOMMENDATION FOR MISS MARIAMA S. DARBOE**

I am indeed pleased to write this recommendation for Miss Mariama S. Darboe. I have known Mariama for a period of two years plus as Hospital Administrator in the Hospital she works.

As a Nurse Attendant of Farafenni this Hospital, I have found Mariama to be discipline, committed and always punctual at work. She is among the most competent Nurse Attendants of the Hospital who deserves to be commended and recommended for any future career development. She is a staff of above average in performance and proved to be reliable, dedicated and enthusiastic in the performance of her duties. I have found her to be one of the most concerned staff in matters related to patient care and management. Miss. Darboe is an individual with a high level of scientific curiosity. Her spoken English is easily understood and her written work is concise and interesting to read. She has good public speaking skills with the ability to present to small and large groups. I am especially impressed by Miss. Darboe's enthusiasm as a staff of the Out Patient/Accident and Emergency Department of the Hospital. She proves to be a good team player who is able to consider and analyze different opinions and take the lead when necessary.

She has keen interest in the care of her patients that are in need of her services. I have found her to be one of the most concerned staff in matters related to patient care at Farafenni General Hospital. Her spoken English is easily understood and her written work is concise and interesting to read. She has an exemplary character and her ability to work independently with minimal supervision is undoubted. She has a good sense of direction with a strong ability to work under pressure and within a multi-disciplinary care team and as well as take swift appropriate decisions during work. She has strong committed desire to excel in her profession manifested by her frequent engagement with Management expressing interest to further her education and upgrade herself in the nursing profession. I am especially impressed by Miss. Darboe's enthusiasm and have no doubts that she is capable of undergoing any training of her choice.

She does not wait to be told to do things but does them accordingly. Personally, I have found her to be an outstanding staff with an enquiring mind and good leadership qualities admired by management, her colleagues and patients alike. I highly recommend her for any further educational endeavor. I think she will make valuable use of this opportunity if accorded to her.

**If you would like additional information, please do not hesitate to contact me at 9966119/9987495/7470637/3510011/3568084**

Yours Sincerely,

  
Famara Sillah

Hospital Administrator
