RECOMMENDATION FOR AMINATA JOBARTEH

. Ms AMINATA been at the facility as a student nurse since October 2021 up to date and has been a very hard working and dedicated student nurse. She has definitely shown her commitment towards the job that gives the senior management team the mandate to assigned her to work along with the trained nurses at the public department

In terms of punctuality, she is always on time and regular at work, very respectful and obedient to the authorities and she is always ready to complete her assigned task. She has work in all the departments or units in the facility.

Due to her performance at the facility, she has definitely shown her skills in caring out basic nursing skills procedures.

I strongly recommend Ms AMINATA for any enrolment into nursing institution in helping her to accomplish her dreams of becoming a better nurse.

I therefore wish her the best of luck in her view to pursue her career dream in becoming a well-trained NURSE and I wish her all the best in her endeavour and hope to see her again in the near future as a trained NURSE.

Yours faithfully,

.....
David Junior Daye
