**RE: RECOMMENDATION LETTER FOR MR. LAMIN DARBOE**

This is to certify that I have known **Lamin Darboe** for about a year now. Lamin is a State Enrolled Nurse currently working at **Essau District Hospital**. He has obtained a State Enrolled Nurse Certificate at the School for Enrolled Nurses and Midwives at Bansang in the Gambia. Lamin has acquired over nine years of work experience in the Gambia offering both nursing and midwifery services.

As his immediate supervisor at the Regional Health Directorate as the Regional Principal Nursing Officer, I have found him to be intelligent, submissive, creative, and also good at absorbing new ideas or concepts. Lamin is honest and polite with a high degree of self-esteem, and a very good sense of purpose. He is highly dependable at work and tries to complete tasks given to him on time. He also has a good team work spirit manifested by his ability in working cordially with all the staff at health facility level.

These aforesaid good qualities, together with his professional qualification and experience, and ambition to further his education make him a very suitable candidate for work and further academic training programs. I therefore, strongly recommend him.

In case of any need for further information concerning him, you may please contact me.

Yours Sincerely,

  
.....

**Omar Gassama**

**Regional Principal Nursing Officer (RPNO)**
