TO WHOM IT MAY CONCERN

Bearer **Jarra Drammeh** was a student of this institution year 2017 - 2018, she was registered to pursue classes in science in a bid to access higher education in nursing.

Jarra Drammeh is hard working girl and her relationship with her fellow students is admirable, she proved a higher sense of responsibility and command respect for the teaching staff and the administration, this and many other factors lead to her practical attachment to **Bundung Maternal Hospital** where she spent one year and has completed basic skills in Nursing.

I therefore recommend her to anybody, institution or Hospital that may need her service.

Thanks

Yours sincerely
