TO WHOM IT MAY CONCERN

REFERENCE INFORMATION FOR MRS.NENEH SANNEH, STATE ENROLLED NURSE MIDWIFE

This is to certify that I have known Mrs Neneh Sanneh for the past Two (2) years, Eight (8) months as one of her immediate supervisors. She was initially trained as a State Enrolled Nurse and thereafter, as a Midwife. She was posted to this region on (01/08/2018) and was redeployed to Basse District Hospital. Since her redeployment to date, she has been working at the maternity and the reproductive maternal, neonatal child and adolescent health (RMNCAH) unit, effectively and efficiently as a professional nurse midwife.

Neneh, relates herself very well with the entire staff and authorities. She is a very hard working nurse midwife, dedicated and punctual, highly committed to work and carries out every assignment with due diligence to completion and on time. I regard her as an icon of discipline; love for humanity and above all, caring.

Her kindness and commitment to work earned her lot of respect. I found her to be very intelligent, clinically sound, obedient and eager to learn new concepts related to her work. She works well within the health care service delivery teams and as well independently with minimal supervision. She can be trusted with things that matters and has all the qualities to be a good leader.

In view of the aforementioned good qualities, coupled with her work experience and ambition, makes her a suitable candidate for further training in the fields of health and elevation to the next level of development. Therefore, she deserves all the necessary support to realize her dreams, as she could be a valuable asset for the health field of this country and beyond.

I therefore, strongly recommend and wish her all the best for her ambition in pursuance of career development to higher heights.
