Re: REFERENCE FOR FATIMA FATTY

This is to certify that Miss Fatima Fatty had worked as a volunteer in the above named hospital from July 2016 to August 2017.

During her time of practice, Fatou demonstrated high sense of discipline, respect, punctuality and respect for authority.

Under supervision, she performed very well in the performance of basic principles and practices in nursing, taking vital signs (blood pressure, pulse, temperature and respiration) bed making, dam dusting and escorting patients to the lab and upper levels for management.

As a dedicated and highly ambitious young lady with such an experience, I humbly recommend her to any concern authority or institution for employment or enrollment.

Yours Sincerely

Mr. Lamin Demba (NO)

Officer in Charge.
