TO WHOM IT MAY CONCERN

RE: Sarjo Sowe

I have known Sarjo Sowe for the past one year in my capacity as Principal of Wescore School of Nursing. Sowe has been an industrious and hardworking student. She has the ability and capacity to further her education to a higher level. She is an ambitious scholar who is always determined to excel in any activity assigned to her. At school, her academic and general performance is both impressive and satisfactory.

Sowe has an admirable sense of discipline and respect for her superiors. She has a good team spirit and work amiably with those who come into contact with her. I sincerely and honestly recommended her as a young woman of sound character and integrity and can do well in any course of study she decides to pursue.

Mr. Hassan Kargbo

Principal
