

Brikama District Hospital
Kumbo Central
West Coast Region
20 January 2021.

Letter of Recommendation.
To whom it may Concern.

Dear Sir/ Madam

Momodou Lamin Manneh has been with us since 2012, during his stay with us he has demonstrated high sense of maturity, dedication, willingness and heart of desire towards work.

He has worked various departments within the health facility such as dressing room, OPD, admission ward, maternity to name few.

Momodou Lamin always work hard and he always ask questions on anything he don't understand, which make him perform well even more than some qualify nurses in the facility.

I would like to recommend him without being hesitate at any level within the ministry of health either work field or educational institutions, because he is polite , efficient, desire and willingness to work and further his education at any where at any level. Finally please give him a chance for wherever he requested I have no doubt he can do it best to his ability.

Thank you.

Yours ever

Malta Mendy Senior Nurse Midwife
