RECOMMENDATION IN RESPECT OF MR ABDOULIE FATTY

Mr Abdoulie Fatty has worked under me for more than six months at Bundung Maternal and Child Health Hospital as an intern.

At the ward, he is very active, hardworking, punctual, dedicated and committed towards whatever task he is assign to do. He is so accommodative and discipline. He is both flexible and trustworthy. Above all, he has manifested some great strides in the proper management of both human and material resources. He is of an intellectual mind and often with supervision refreshes his abilities with new and improved techniques during procedures. He readily accepts advices and carries out assignments to the best of his ability.

He has a good communication skills, warm personality and great leadership skills.

I am more than convince with such a zeal and positive attitude towards nursing, if he is giving the opportunity to work in your institution he would without doubt impact positively towards patient care.

I wish him the best.

Yours in service,

Omar Jallow

Deputy Charge Nurse High Dependant Ward,

BMCHH.
