REFERENCE FOR ALAGIE JASSEY-JUNIOR STAFF NURSE

I have had the joy and satisfaction of working successfully with **Alagie Jassey** for a period of almost 2 years and in my capacity as the **Regional Principal Nursing Officer**; I've witnessed his cooperative spirit, professional attitude, and caring behavior.

Alagie works collaboratively with his colleagues and has developed a cordial and close working relationship with the RHD responsible for all the health staff in the region. Secondly, one of **Alagie's** exceptionally strong features is his attitude towards work. He is very punctual and respects authority and gathered respect from the community he serves.

Alagie has an easy-going character and quiet type who listens carefully and very attentive in professional gatherings. He will fit in very comfortably with any institution or group of professionals and I have no doubt that he will excel in any opportunity that may avail his shore. His professionalism is a well-balanced blend of competence, experience, and cordiality. I eagerly give my endorsement of **Alagie's** skills and professionalism with the highest praise for any academic pursuit. Thanks.

Yours sincerely

Sang Mendy

Regional Principal Nursing Officer
