TO WHOM IT MAY CONCERN

Mr. Mommdou Jallow a State Enrolled Nurse/Community Ophthalmic Nurse (SEN/CON) has been posted to Essau District Hospital for over five years. Since then he has been dedicated to duty and he is always available wherever his service is needed at any time without hesitation.

Momodou is very intelligent, skilful and has a lot of potentials and experience in his field of work. When it comes to eye care services and related work Momodou is excellent. He is committed and always respect his work at all time. So because of these qualities he normally manage the eye unit along for over a month with no supervision.

Sir/madam, with these skills and good professional attitude he has acquired over the years, I have no doubt in his ability and capacity to venture into any further endeavour. I therefore recommend him to any higher learning institution in or outside the country to develop his career without any regret. Momodou is a good and respectful gentleman to work with at all time.

Yours Faithfully,

Sera Conteh
Officer in Charge
Essau District Hospital
