RECOMMENDATION FOR YASSIN NJIE

I hereby write to make this recommendation on behalf of management as the Principal Nursing Officer of Farafenni General Hospital for Madam Yassin Njie, a staff of the hospital.

I have known Yassin Njie since February 2016 when she got posted to this facility as a staff and she is a State Registered Nurse (SRN) basic.

Yassin works in different units of the hospital as a staff and among them – the Outpatient Department/Accident and Emergency unit, Medical ward, Surgical ward, before she finally end up at Peadiatric Wards where she works as a staff up to date.

She is a young lady full of ambition who always approaches her work with discipline, commitment and dedication to duty. Yassin is extremely organized, reliable and always willing to go “extra mile” to ensure that jobs get done accordingly.

With the above mention reasons therefore, I wish to recommend her to any potential person or institution for any service she wants to undertake to develop her future carrier.

For any further information regarding the person or the document, please do make contact with these numbers: 9958157/3510012

Thank you,

Mr. Lamin Bondi
Principal Nursing Officer
For Chief Executive Officer
