Recommendation on Behalf of Bintou Kolley

To WHOM IT MAY CONCERN

I am writing this letter to strongly recommend Miss. Kolley for your any vacant position applying for. I know Miss. Kolley because she has undergone training under my supervision in the school garden for a Level I and II course on Basic Horticultural Production for two years and has successfully completed the course.

I had given her and prepared a two-page project description. This level of effort is typical of a good agricultural student who joins the farm, so I agreed to take her on for a summer during her time in the farm; Miss. Kolley demonstrated a good work ethic and interpersonal skills. We outlined a scope of work to be completed, and she successfully completed that work in the time required. She put in extra hours as necessary in order to meet a specific deadline that was set. She was teamed up with another student to work on the project. She seemed to work well with the other student, and I found her very personable. Miss. Kolley put in sufficient work to be a coordinator on a project work. Overall, I would strongly recommend her for a position in your program.

Yours Sincerely

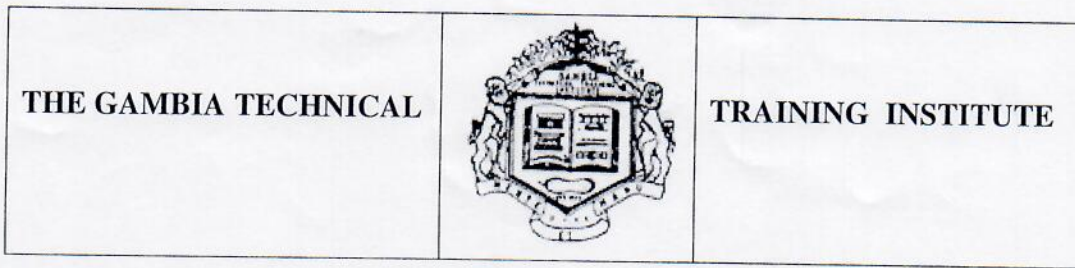

Lamin K M Fatty
